Read every label carefully. Look at the ingredients and the allergy warning to see if the food contains anything off-limits. While we encourage you search for additive-free foods, the only additives that will exclude the product from the Whole30 are the ones specified as “off-limits.” Refer to the “Can I Have…” section of The Whole30 (starting on page 60) for details.

**off-limits for the program**
- CARRAGEENAN: Thickening, gelling, and stabilizing agent common in almond milk or deli meat
- CORN STARCH: Grain-based thickening agent
- MONOSODIUM GLUTAMATE (MSG): Flavor enhancer common in canned tuna or broth
- SOY LECITHIN: Soy-based emulsifier commonly found in everything from almond milk to tea bags
- SULFITES (SULFUR DIOXIDE, SODIUM BISULFITE, POTASSIUM METABISULFITE): Preservative common in dried fruit or canned coconut milk

**acceptable for the program**
- ACACIA OR AGAVE INULIN
  Soluble fiber, prebiotic source, common in milks or creamers
- ACETIC ACID
  Preservative or flavor enhancer in vinegar or pickled foods
- ALPHA TOCOPHEROL (VITAMIN E)
  Antioxidant, nutrient
- ASCORBIC ACID (VITAMIN C)
  Antioxidant, nutrient, color stabilizer
- BETA-CAROTENE
  Coloring agent, carotenoid (nutrient)
- CALCIUM CARBONATE
  Used as an inexpensive calcium supplement in almond milk
- CALCIUM CHLORIDE
  Firming agent, salty flavoring in canned tomatoes or pickles
- CITRIC ACID, SODIUM CITRATE
  Preservative or flavoring common in canned tomatoes
- FERROUS GLUCONATE
  A common color-preserving agent found in canned olives,
- GUMS (ACACIA, GELLAN, GUAR, LOCUST BEAN, XANTHAN)
  Thickening and stabilizing agent common in milks or creamers
- INULIN (OTHER SOURCES, INCLUDING IMO)
  Soluble fiber, prebiotic source, and/or fat substitute
- LACTIC ACID
  Produced by fermenting carbohydrates, often in kombucha
- NATURAL FLAVORS*
  Flavoring agent common in a wide variety of products
- NIACIN (VITAMIN B3)
  Nutrient
- PECTIN (SODIUM PECTINATE)
  Gelling agent common in jams or jellies
- POTASSIUM CHLORIDE
  Salt substitute
- POTATO STARCH
  Thickening agent
- RIBOFLAVIN (VITAMIN B2)
  Nutrient
- SALT (SODIUM CHLORIDE)
  Flavoring, preservative
- SODIUM NITRITE, SODIUM NITRATE
  Preservative, coloring, or flavoring agent
- SUNFLOWER LECITHIN
  An emulsifier found in almond milk, as an alternative to soy
- ZINC GLUCONATE
  Popular form for the delivery of zinc as a dietary supplement

*While these chemicals are derived from natural sources, they are then purified, extracted, and added back into the food in a lab. While even the conservative Environmental Working Group says “natural flavors” aren’t linked to any ill health effects, it’s still confusing to see them on a label. We’d prefer ingredient transparency, but don’t rule out natural flavors on the Whole30, and aren’t concerned about their health effects.
